

## Danish Art Workshops – Selected Projects

A joint exhibition in the largest art production residency of Denmark

12 – 14 June 2024 from 10am- 6pm

**Vernissage: 11 June 2024, 5pm-10pm**

### *Story*

The Danish Art Workshops contribute to the field of art and design by providing professionals with a unique platform for artistic development and production. In the many specially equipped workshops, artists and designers can apply for residency to develop their ideas and produce large and complex works with counselling from skilled professionals. Here lies the root of large amounts of the art and design we see today; here new talents on the art and design scene are born.

### *Exhibition*

This is the first time the Danish Art Workshops participate in 3daysofdesign. Our goal is to create a unique exhibition platform for art and design developed inhouse. We are proud to present 16 talented exhibitors and their projects, curated by the renowned Danish Artist and Designer, Birgitte Due Madsen.
